

AHS Employment Opportunity

April 15, 2020

Background

In order to meet urgent staffing needs, AHS will be conducting a rapid hire process for candidates into identified casual positions. Candidates from the paramedic profession must hold an active practice permit on the provisional, general or courtesy register with the *Alberta College of Paramedics*.

EMS is conducting a provincial workforce planning assessment to determine the locations of highest need within Alberta. Casual employment will be offered based on geographical needs, required qualifications and local staffing requirements.

All positions being offered during the COVID pandemic are casual, and for the purposes of meeting urgent staffing needs. AHS will review the ongoing need for elevated staffing levels and new hires will be advised when their Role concludes.

Application Process

AHS is actively recruiting:

- Advanced Care Paramedics (ACP)
- Primary Care Paramedics (PCP)
- Emergency Medical Responders (EMR)

Interested individuals should submit a resume and a copy of valid registration to [AHS Centralized Recruitment Hub](#).

The Centralized Recruitment Hub, supported by Human Resources, will perform screening and hiring. Selected candidates will be submitted to the Provincial Scheduling Service to be deployed to urgent areas as needed.
